Free on-line access to all published articles

Indexed in Scopus, IET Inspec, and EBSCOhost databases

**Covered topics:**

1. Microwave and RF devices and circuits
2. Electromagnetic fields and guided waves
3. Antennas and propagation
4. Light-wave technology and fiber optics
5. Microwave communication systems
6. Wireless communication systems
7. Fiber-optic communication systems
8. Computational and numerical techniques
9. Signal and image processing
10. Biomedical and industrial applications of microwaves
11. Electromagnetic compatibility
12. Education in telecommunications

Only papers that contain original and previously unpublished authors' research results can be submitted. Exceptionally, in the invited papers an overview of the state of the art in some fields can be given.

All papers are peer-reviewed before publishing.

The camera-ready manuscripts are sent by e-mail either to the editor or to the technical editor.

The both formats listed below should be sent:

1. An original document written in Microsoft Word format
2. A camera-ready paper in Adobe PDF format.

Instructions for preparing a camera ready copy are available at the journal website.
